

USER NARRATIVE

Login Page

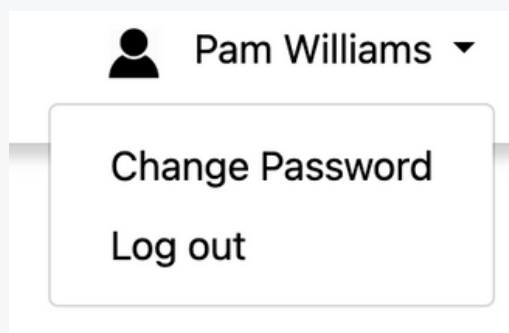

When accessing the Madison County Management System, users will be prompted with the log in page, where they will enter their username and password.

The image shows a web page titled "Employee Sign In". At the top center is the Madison County seal, which features a building and the year "1794". Below the seal, the text "Employee Sign In" is centered. There are two input fields: "Email address" and "Password". Below the "Password" field is a checkbox labeled "Remember me". At the bottom is a blue button with the text "Sign in".

The image shows a user profile dropdown menu for "Bob Thompson". The menu is open, showing three options: "Manage Users", "Change Password", and "Log out".

The image shows a user profile dropdown menu for "Pam Williams". The menu is open, showing two options: "Change Password" and "Log out".

User Creation

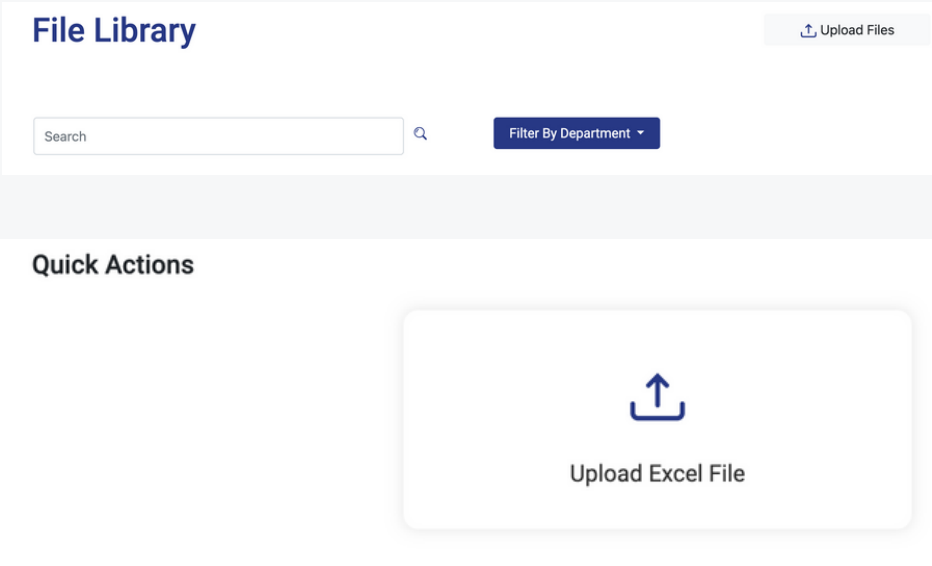

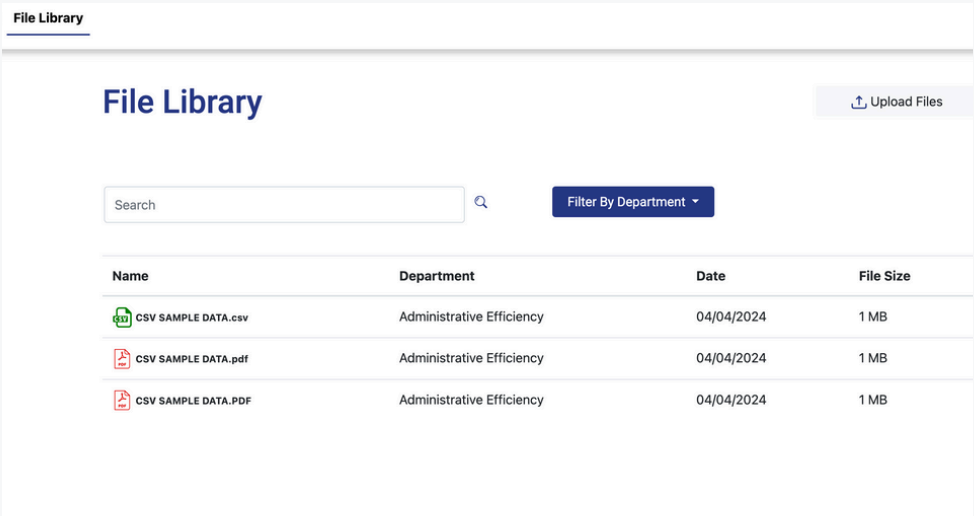

The staff member that is considered the “super user” has access to manage accounts and create new users. All users are given a temporary password from the super user and must change their temporary password after logging in for the first time.

In the pictures to the left, Bob Thompson is the “super user” and Pam Williams is an elected member.

USER NARRATIVE

File Library

The file library is where all of the documents that were uploaded onto the system are stored. The user can search for a file by name, or filter the results by department, date, and/or file type.

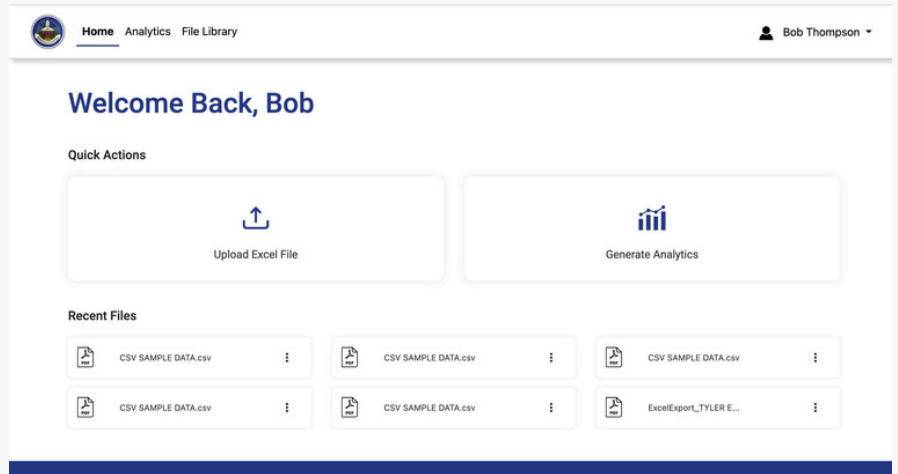

File Upload

There are two places where users are able to upload files to this system. The first place is under the File Library Tab from the navigation bar. The second location is under the quick actions on the home page.

USER NARRATIVE

Dashboard

The dashboard is located in the home tab of the navigation bar. This is a central point where users are able to complete quick actions and access recent files they have previously viewed.

USER PERSONAS

JEFF TURNER

Local Citizen of Madison County

Jeff is a lifelong resident of Madison County. Jeff has been a farmer for the past 20 years. He uses public geographic data like field boundaries and growing cultures to estimate crop yields and potential growing problems.

MOTIVATIONS

Jeff would like a space where he can easily find information on the geography and past growing patterns in the county. Currently, he is having issues finding the information he needs in a timely manner and hopes to see some more organization within the site.

GOALS

Jeff wishes to be able to estimate his crop yield and get accurate information on potential problems that may arise. He needs a site that allows him to filter agricultural information from past years.

PAM WILIAMS

Treasurer of Madison County

Pam is a 20 year resident of Madison County and has been on the government board for the last five years. She loves her community and has no plans of moving. Pam is dissatisfied with the organization of important documents and data from the county records.

MOTIVATIONS

Pam would like a space where she can look at an abundance of information that is all organized in a simple manner. She would like to be able to see models that project future spending as well as future revenue.

GOALS

Pam's goals are to continue to accomplish any duties that are required as Treasurer. She needs a system that is not complex and has easy user ability when dealing with her record keeping & financial transactions.

USER PERSONAS

BOB THOMPSON
Head of Information Technology

Bob is a 15 year resident of Madison County. He has been overseeing anything related to IT for the past 7 years. He wants to make sure there is an easy to use interface for everyone with an account and others who create one.

MOTIVATIONS

Bob needs a space where all accounts are easy to access. This software should follow a simple format. Bob should create accounts for new users like the public and employees of Madison County.

GOALS

Bob's goal is to be able to efficiently store and preserve all information for Madison County. He needs to be able to exchange and upload data. He also needs to store user information for employees and public.

The dashboard features a left sidebar with navigation icons for Search, Dashboard, Meetings, Documents, and Directory, along with a user profile picture. The main area is titled 'Meetings' and includes a '+ Create meeting' button. It displays two meeting cards: 'Board of directors' on Feb 19 and 'Finance committee' on Feb 26. Each card shows the meeting time, location, and associated documents like Agenda, Board book, and Minutes.
